

BATTERY SAFETY DROP-OFF KIT

Difficulty: Starter · Time: 40 minutes

WHAT YOU'LL BUILD

Build a simple, safe bin for household battery collection and transport.

STEP-BY-STEP GUIDE

1. Line a sturdy plastic container with a non-conductive liner and add a lid.
2. Tape battery terminals, separate damaged cells in a sand-filled pouch, and label hazards.
3. Post pickup instructions and deliver to a certified drop-off partner weekly.

COMMUNITY IMPACT

Prevents fires, chemical exposure, and unsafe household disposal.
